[QATC-860516] <b>Optimize: The buttons overlap other elements when the Optimize window is minimized</b> Created: 13/Aug/24 Updated: 13/Aug/24	
Status:	Open
Project:	Training Center
Component/s:	Kimba
Affects Version/s:	2.0
Fix Version/s:	None
Security Level:	Leads and Reporter only (Security level Leads and Reporter)

Type:	Bug	Priority:	Major
Reporter:	Wahidul Alam Nahid	Assignee:	Unassigned
Resolution:	Unresolved	Votes:	0
Labels:	None		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original Estimate:	Not Specified		
Environment:	OS: Windows 10 [x64] Tool: Oracle VM Virtual box 7.0.18		

Attachments:	 optm overlap.mp4
Severity/Importance:	2-Major
Error Type:	Functional

Description

Steps:

1. Open Kimba2 Software

2. Click on File

3. Click on folder

4. Browse a folder containing pictures

5. Select the folder and click OK

6. Select picture

7. Click on edit

8. Select on optimize

9. Resize(minimize) the optimize window

Actual Result: The buttons overlap other elements when the Optimize window is minimized

Expected Result: The buttons should not overlap other elements when the Optimize window is minimized

Time Spent:	Not Specified		
Original Estimate:	Not Specified		
Environment:	OS: Windows 10 {x64}		

Attachments:	 zip file.mp4
Severity/Importance:	1-Critical
Error Type:	Functional

Description

Steps:

1. Open Kimba2 Software

2. Click on File

3. Click on folder

4. Browse a folder containing pictures

5. Select the folder and click OK

6. Click on File

7. Click on Create Gallery

8. Notice the Designated folder for the created gallery

Actual Result: A folder is created instead of the .zip file when clicking in "Create Gallery"

Expected Result: .zip file should be created for the Create Gallery.
